

## DESCRIPTION

Somfy's easy to install and simple to use Digital Key Pad Programmable Switch is the perfect "KEYLESS" solution to motorized doors, and a convenient control for motorized Rolling Shutters and grilles. Designed for your security conscious customers, the Digital Key Pad features personal code numbers to help prevent unwarranted access to their premises. The three digit directional codes can be changed by the end user to ensure limited access, or protection should a compromise of security occur.

## COMPONENTS

**IGC Control**  
Cat. No. 6300717

**Digital Key Pad  
Outdoor Switch**  
Cat. No. 6300849

**Two Gang  
Electrical Box**

**25' Modular Cable**

## OPERATING PROCEDURES

### A. Low Voltage Connection

For individual control of one motor, plug the keypad modular cable into the individual port of the IGC or IGC/3N1. Use the master port for group control.

### B. Operating Procedures

1. To raise the door or shutter, enter the programmed UP code on the Digital Keypad.
2. To lower the door or shutter, enter the programmed DOWN code on the keypad. Please allow a two second pause when reversing directions.
3. To stop the door or shutter at any time, enter the STOP code.

### B. Programming Instructions

The IGC Outdoor Digital Keypad comes factory programmed with codes for UP, DOWN, and STOP. To keep secure access, the codes can be reprogrammed by following these steps:

KEY P D ENT	ACTION
*382436#	Enter programming mode
*193#	Set code length to 3 digits
*11UUU#3#	UUU is the UP code (enter desired digits)
*11SSS#34#	SSS is the STOP code
*11DDD#4#	DDD is the DOWN code
*2301#	Set output pulse width
*2401#	
*99#	Exit programming mode
